

## **More about Invisalign**

After the initial records visit, we will submit your case to Invisalign. Once Dr. Beaty has approved the treatment proposed by Invisalign, it takes about 4-6 weeks for the aligners to arrive. Each set of aligners will be worn for 2 weeks.

After you receive your 1<sup>st</sup> set of 3 aligners, you should expect to return about every 6 weeks for the next set of 3 aligners and evaluation of current progress until treatment is complete. These visits usually last 20-40 minutes depending on which stage of treatment you are at. The length of treatment varies for each individual and will be determined once Invisalign has evaluated the case.

### **The fee for Invisalign is \$4,950 and includes:**

- Study models
- Impressions
- Diagnostic Photographs
- X-rays
- Placement and removal of attachments
- Slenderizing
- All appointments during treatment sequences necessary to complete treatment
- 6 syringes of whitening solution over the course of treatment
- One set of retainers

### **Additional costs:**

- Replacement of any lost aligners - \$100 per aligner
- Mid treatment correction made necessary by lack of compliance – fee varies according to treatment
- There is also an option of ordering a set of 4 Vivera retainers, instead of the 1 set mentioned above, at the end of treatment for an additional cost of \$200

### **Payment options:**

- Payment in full at initial records visit – 5% professional courtesy
- 3 monthly payments of \$1650 – beginning with the initial records visit
- Financing through 5/3 Bank, for those who qualify – 0% financing for the 1<sup>st</sup> 12 months
